BOSTON AMERICAN

80 AND 82 SUMNER ST., BOSTON, NOVEMBER 15, 1909

It is generally conceded that the Boston American has a greater circulation than all the other Boston evening papers combined, and that it is as strong in Boston in the evening field as, for example, a paper of the combined strength of the Evening Journal and Evening World would be in New York city, or the Evening American and Evening News in Chicago.—Advertisers Magazine.

Telephone Girls, Be Proud of Your Beautifully Shaped Heads

And Don't Make Them Hideous with Rats and Puffs—False Hair Comes Largely from Chinamen, and Is Dangerous Anyhow

Copyright, 1909, by American Journal-Examiner

Our congratulations to the telephone managers throughout the country who have persuaded or compelled the young ladies of the switchboard to give up the wearing of enormous puffs, and rolls, and mounds, and rats, and mounds of false hair on their heads.

Unfortunately the telephone managers in Boston have not taken this action nor do they contemplate anything of the sort. This regulation was enforced by the telephone bosses simply as a matter of commercial convenience. The girls at work wear on their heads a sort of steel band that holds the receiver against the ear. And the gigantic mounds of false hair interfered with that steel band. But, in spite of the fact that their ruling was purely commercial, the telephone managers are to be thanked, in the name of ART AND BEAUTY and all-round aesthetics.

We wish to say THESE THINGS most impressively to telephone girls:

There's nothing more beautiful than a well-shaped head.

And the beautiful thing is the shape of the SKULL, not the shape of some preposterous rat or puff that happens to be the idiotic fashion.

A well-rounded head, with the hair smooth and, if possible, showing the entire shape of the head, front and back, is the finest thing about any kind of a human being.

If you make your head look like a mass of whipped cream full of hair, your head is ugly AND SO ARE YOU.

All that there is in a human being, after all, is the brain, the intelligence, the spirit—and the shape of the head tells the story.

Every fraction of an inch in the height of your forehead is the work of thousands of years.

And when you marry and have children, if you happen to be the mother of a President of the United States or somebody a good deal better—for instance, the mother of the man who makes the President behave—you will owe that fact and you will owe his success TO THE WAY YOUR HEAD STICKS OUT IN THE BACK, showing driving force. AND THE WAY IT STANDS UP ON TOP, showing imagination and reverence. AND THE WAY IT BULGES OUT IN FRONT, showing capacity for forming new ideas.

Fix the top of your head, therefore, in such a way as to make it and you beautiful. Part the hair neatly in the middle, comb it down smooth on both sides, without frills. Don't make it look like a rat's nest composed of hairy sausages.

And remember one thing, ALL FALSE HAIR IS HORRIBLE AND ABOMINABLE. AND MUCH OF IT CAUSES DISEASE.

Note this case of a New Jersey girl. This girl bought a "transformation." After wearing it a few days her scalp began to itch. Her mother suggested it might be the new "transformation," and the girl did not wear it for a few days. The itching stopped, and she resumed wearing it. The itching returned, and this time with such violence that physicians were called in.

The unfortunate girl had contracted the terrible disease LEPROSY. The hair in her "transformation" had been taken from a diseased Chinese.

It's a frightful story, and it ought to warn girls who waste their money and spoil their looks with false hair.

Just believe that nature knows how to make you attractive. Be thankful for what she gives you. Keep yourself clean and neat and your hair smoothly combed and brushed.

Avoid "transformations" that transform nature's beauty into hideous ugliness.

Telephone girls, this is the way you should look if you want to marry the third millionaire whoident how you can be so young and so patient when he asks for sixteen numbers, or, better still, if you want to marry the hard-working young man who appreciates a common-sense girl.

Remember, as you sit at a telephone, that you belong to the honorable American army of men and women that earn a living. You are a worker; DRESS LIKE A WORKER AND LIKE A WOMAN OF BRAINS.

Wear a plain, black dress; alpaca is very good. Have it made very simply, BUTTONED DOWN THE FRONT.

Plain, black, bone buttons look very well.

Wear the neck of your dress loose, and cut just around the bottom of the neck. All pressure on the big blood vessels in the neck is extremely harmful. It interferes with the supply of blood to the brain.

Around your neck have a simple collar of artificial lace, two or three inches deep, and fastened with a plain bow or some plain pin—NOT AN IMITATION OF DIAMONDS.

Have good, big, comfortable shoes, with square toes. Try to have a soft mat of some kind under your feet.

Wear your hair off your forehead, parted in the middle, and combed smoothly. Do not have your nails too ridiculously polished and pinked—that looks foolish.

Wear sleeve protectors of black muslin from your wrist up above your elbows.

Talk to the men who come to you in a businesslike way. And if there's any one of you worth bothering about he will think that you are a pretty sensible girl.

In addition, YOU WILL BE A SENSIBLE GIRL, which is far more important.

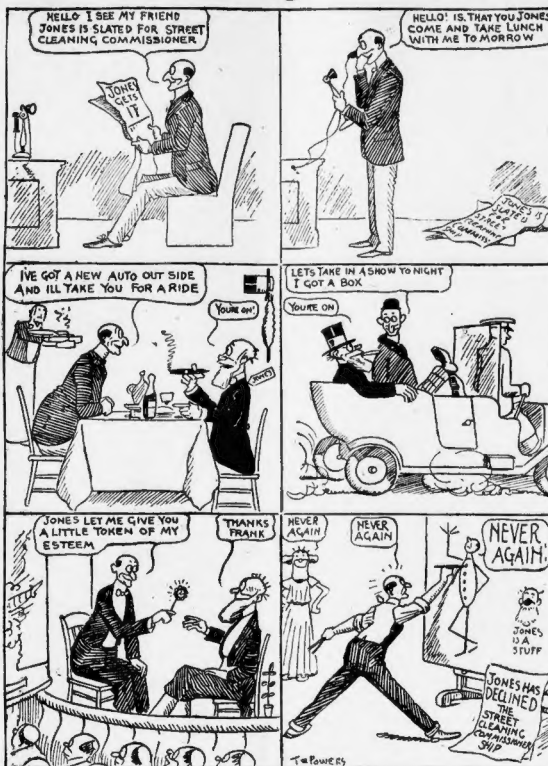

To the general public we should like to say that the hard work that the telephone girls do is not half appreciated. Their patience and good nature under foolish complaints are extraordinary. And they all deserve to marry good men and "live happy ever afterward," and we hope that they will.

"The AMERICAN has the evening 'home' sold in Boston exclusively."—Advertisers Magazine.
